About Our Products

We make three-wheeled cargo bicycles for commercial and personal use. All our bicycles are made by hand in our production facility in Kuala Lumpur with parts made by local craftspeople. For more than 40 years, we have been building high-quality, eco-friendly bicycles that are good for the health of both people and the planet. We are proud of our products, and we invite our customers to take photos of their Branxley bicycles in action and share the images via social media.

Update—30 August

We have experienced a dramatic surge in orders. Even with our staff working overtime to catch up, it may take longer than usual for customers to receive their bicycles. Currently, we are expecting a delivery time of 10 to 12 weeks for all bicycles ordered on or after August 15. We appreciate your understanding in this matter.

Review of Branxley Cycles

I have been a cycling enthusiast most of my life. Recently, I decided I needed a bicycle to bring bulky items home from stores. I searched online and inquired at local shops, but no one had quite what I wanted. After talking with a coworker, I learned about Branxley Cycles. I contacted the company via e-mail, and all my questions were answered promptly and thoroughly. I ordered a three-wheeled cargo bicycle from them on August 20 that was delivered in only two weeks. Branxley Cycles cargo bicycles have become very popular with area businesses; I see them everywhere now. It is hard to believe the company can meet the demand, but they manage to do it. I am very happy with my Branxley Cycles purchase, and I recommend it to everybody that comments on it as I ride it around town.

Questions 181-185 refer to the following article and review.

EDINBURGH (2 July)—Jackson Milne says being part of a family business feels good. He jokes that he has a prime seat in his organisation—and, in a way, he does. The century-old company Milne Associates designs and supplies seats to theatres here in Edinburgh as well as in London and New York. It was founded by his great-grandfather Angus Milne. Jackson Milne has worked in every area of the business, from the factory floor to the executive suite. He became the company's director of design last year.

"Making these seats can be quite challenging, especially ones for older buildings," said Mr. Milne, who designed the seats for the 135-year-old Wolff Theatre. That is where the hit musical *Skyscraping* is now playing to packed houses most nights.

"Our priority is creating pieces that are functional and in harmony with their surroundings," he said. "We try to balance aesthetics, practicality, and convenience."

City Travel Review: Plenty to See and Do in Edinburgh

I had a delightful day in Edinburgh last week. I hadn't been to the city in quite a while—more than 25 years—and so much has changed! One day was not enough to see everything, so I'm already planning another trip for later in the summer.

My friend and I took the train there, and our first order of business was a guided tour of Old Town. It was marvellous! We had lunch at the Red Rose Café, which I highly recommend to anyone who appreciates delicious food at a reasonable price. The day's highlight was attending a performance of *Skyscraping*. It was wonderful! I enjoyed everything about it—the acting, the story, and the songs. The Wolff Theatre is a lovely historical venue. After our long day around town, we were grateful for the theatre's new, comfortable seating.

—Punam Nandi, 15 July

The Orvale Natural History Museum's monthly lecture series will continue on October 18 with a lecture by resident archaeologist Dr. Maria Fiallo. The lecture, titled "Earthenware Relics from the Central Prairie," will take place at 7:00 P.M. in the Chovey Community Room near the north entrance of the museum. Dr. Fiallo will discuss last month's unearthing of several pottery pieces in the Central Prairie region, marking the first find of its kind in this area. "Surprisingly," said Dr. Fiallo, "the site was literally stumbled upon by a farmer digging a well on his land. Thankfully, he alerted our museum's research team as soon as he spotted the pieces."

Audiences will get to see some of the earthenware up close at the event, as well as other types of everyday objects. However, many of the pieces will be shown in photographs, as they are too delicate to be moved around. Dr. Fiallo says she is looking forward to sharing this latest discovery. "The findings give us a glimpse into how people went about their daily lives over 800 years ago," she said.

The lecture is free and open to the public.

Hi, Richard,

I was just contacted by Professor Allen Whitford from Orvale University's archaeology department. He would like to bring two of his classes to Dr. Fiallo's lecture on October 18. Both classes are studying how to identify and analyze historical artifacts, so he was very happy with the topic of our lecture this month. What's more, Professor Whitford is a former research colleague of Dr. Fiallo. I am inclined to indicate my support, but I just want to make sure we can accommodate the approximately 30 students he is planning to bring—in addition, of course, to members of the public who want to attend.

We will need more than 75 seats, so let's discuss moving the lecture to another location in the museum. There are a couple of alternative spaces, right? I would like to reply to Professor Whitford as soon as possible.

Thanks!

Deb

Dear Dr. Fiallo,

Thanks so much for your informative lecture yesterday evening. My students were thrilled to see some of the pottery up close on the display table. They were especially impressed by the stone tools included among the items. That these artifacts were so close by all this time was truly amazing for my students to contemplate. I am so glad the pieces are safe at the Orvale Natural History Museum, which I know to be a good steward of such treasures.

I hope you will consider my invitation to collaborate with my team and me here at Orvale University on some exciting research projects we have planned. Let me know if you are interested, and I will forward the details.

Sincerely,

Allen Whitford

Subject: Delayed return

Hi, Cindy,

My return flight has just been canceled, and the next available one is tomorrow morning. I expect to return to the office just in time for the data security training, but I need your help rearranging my calendar.

• The budget meeting needs to occur this week, so please contact the team to schedule another time. You can use my Friday morning planning time but not my personal time on Thursday morning.

• I'd like to interview our selected applicants later this week, maybe on Friday afternoon if the candidates are amenable; please call them to check. In connection with this, I need to meet with human resources staff only after all the interviews are done; please reschedule that meeting to sometime early next week.

• I have some important news for the marketing team about new eyewear promoted at the seminar. Could you see if they can meet on Wednesday afternoon?

Many thanks,

Sarah Moreland

Good afternoon, Ms. Moreland,

I have been working on your calendar per your request. I have rescheduled your budget meeting for 10:00 A.M. on Friday. Eric Kim says that he has no critical new information to share with you at his 2:00 P.M. meeting with you on Friday, so I can postpone that. Fortunately, all job candidates have agreed to have their interviews on Friday afternoon, and I have moved your human resources meeting to 9:00 A.M. next Monday.

I have been unable to get through to every marketing team member to set up a meeting to discuss the new eyewear. I will keep trying.

Best regards,

Cindy

Subject: Planning for autumn

Hello, Janice,

I need to update you on a couple of issues affecting our autumn schedule.

• The arts commission has asked our Gradey City Choir to debut a special piece of music in November, the oratorio *By the Meadow* by Gradey City's own Jeffrey Stolartz. It is such an honour to be selected to perform this composition! This addition to our schedule completes our autumn lineup.

• Unfortunately, I learned late last week that two singers need to be replaced before rehearsals begin in August. Since we are already one week into July, I opened an account with Music Link Plus (MLP) this morning to expedite our search. Tomorrow, I plan to post our positions on their Job Listings page. Using this Web site will allow us to reach countless potential applicants. Additionally, MLP gives us the option of having candidates audition by providing video recordings. Given our time constraints, we should consider having auditions done this way. However, if you feel that in-person auditions are necessary, please let me know by the end of the day today.
